

I am strongly to this ruling (04-232) for the following reasons:

- 1) Cost of installing equipment to record programming from 6:00 AM to 10:00 PM
- 2) Manpower needs to assure equipment properly functioning.
- 3) Storage required for 60 days of tapes.
- 4) No history of "indecentcy" violations
- 5) Entire industry being blamed and punished for actions of a few.
- 6) Impinges on 1st Amendment as it chills on-air speech through threats of government review.
- &) Why not place the burden of proof on those violators and not entire radio and television industry.

thank you. Marsha Strong KKBS
